Chris Giannakas
CAW Plant Chairperson
Union Office: Ext 263

The Fabco Company was started in a two car garage in the late 1940s. The company relocated its operations to the current Windsor plant located on Division Road.

The Ridgetown Plant was built in 1987. This plant originally was 55,000 square feet in size and was located on a 10 acre site. An expansion was completed in 1991 that increased the size to 70,000 square feet on an 11.5 acre site. "Ridgetown" is primarily considered to be a metal stamping and welding facility presently employing 200 CAW members.
