CAW Chairperson
Union Office: Ext 6171

Riverview Gardens opened in 2006 and is the one of the largest long-term health care facility in Ontario. It features 320 bedrooms, five residential floors, including a secure floor for Alzheimer patients. Residents are offered an overabundance of programs and services, ranging from piano recitals to barbeques right along the Thames River. In addition to its excellent working relationship with the local hospitals, Riverview Gardens has a fully trained nursing staff capable of carrying out most procedures.

Through the utilization and cooperation of dedicated, qualified staff and volunteers, we provide complex and continuing care including respite, restorative, palliative and bereavement counseling to meet the individual needs of our residents. Our residents include individuals 18 years of age and over with long term illnesses and disabilities whose care can no longer be provided in their own homes. The services we provide, combined with community partnerships, extend to our residents, their families and their community. A 230 bed long term care facility offering nursing, volunteer programs, pastoral care, a social worker and a dietitian.

Service Matters... in Chatham-Kent
