Matt Paolone
CAW Plant Chairperson

Nowhere else does cleaning quality so significantly impact product quality than in the paint shops. Robinson Solutions has developed unmatched expertise in achieving and maintaining paint shop performance.

We have helped our clients optimize the cleanliness and operation of their paint shops by implementing high quality, efficient cleaning procedures. Robinson Solutions' management programs have been proven to reduce dirt-in-paint and enhance first-run quality and first-run yield.

Our program is customized to accommodate each client's needs. We can manage your resources, bring in our own, and manage second-tier suppliers or any combination of the above to maximize quality and efficiency.

Service Matters...in Chatham-Kent
